YDM3115 (Silver)
 Front Body 29.8 (D) X 72 (W) X 344 (H) mm
 Back Body 36 (D) X 72 (W) X 344 (H) mm

- 
Multiple Access
 Yale YDM3115 has three access solutions, PIN Code, RFID card, Key override for your convenience.
- 
Smart Keypad & Operation Status Notification
 Keypad can be seen only when you touch the screen with your palm. Whenever any operation is made, the keypad informs you what is happened through different alignment of the numbers.
- 
Security / Normal Mode
 For multi-user environment, YDM3115 can be turned to Security Mode that master can register and delete each user while Normal Mode controls all the users at one time.
- 
Fake PIN Code
 To prevent the PIN Code from being exposed, it allows you to enter Fake numbers before or after entering your PIN Code.
- 
Missing Card Invalidation
 Once you lose your RFID Card, it has no validation as long as you re-register rest of your keys.
- 
Automatic Locking
 YDM3115 automatically locks the door after checking it is properly closed. (Manual operation is also available.)
- 
Mechanical Key Override
 For emergency, it can also be unlocked with a mechanical key.
- 
Alarm (Break/Damage)
 80dB alarm goes off if anyone attempts to damage the lock or force the door open.
- 
Low Battery and Emergency Power
 It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply emergency power to the lock with the standard 9V battery.
- 
Remote Control (Optional)
 Remote control type is also available. Wireless Floating ID technology is adopted and works up to 50m.
