BS EN 1303: 2005 Classification

This cylinder offers resistance to many types of attack. It is designed to be used in conjunction with 2 star security door hardware to ensure enhanced resistance to all commonly used attack methods. Therefore this product **MUST** be used in conjunction with 2 star security door hardware meeting TS 007 to ensure total security. For more information visit the Yale website.

Fitting Instructions

To ensure that you purchase the correct size cylinder for your lock, remove your old cylinder and measure each side of the cylinder as shown on the diagram.

The Anti-Snap protection is on the external side of the cylinder. The first size on the product code indicates the external side.

E.g. Part Number AS5040PB

'A' Length (External) = 50mm

'B' Length (Internal) = 40mm

Changing your cylinder:

Step 1: Remove your cylinder from the door by unscrewing the fixing screw.

Step 2: Measure each side of the cylinder to the centre of the cam making sure you indicate which is the external side and internal side.

Step 3: Purchase your new Yale Anti-Snap cylinder.

Step 4: Due to the security features of the product to fit your new cylinder you will need to take the door handles off the door and place the cylinder in position from the outside of the door.

Step 5: Secure the cylinder in position with the fixing screw provided and re-fit your door handles.

10 Year Guarantee

This British Standard product is guaranteed against faulty workmanship, materials and function for a period of 10 years from the date of purchase providing the full installation and

maintenance instructions are followed. A full copy of this guarantee is available upon request or by visiting our website www.yale.co.uk.
