BS EN 1303: 2005 Classification

This cylinder offers resistance to many types of attack. It is designed to be used in conjunction with 2 star security door hardware to ensure enhanced resistance to all commonly used attack methods. Therefore this product **MUST** be used in conjunction with 2 star security door hardware meeting TS 007 to ensure total security. For more information visit the Yale website.

Fitting Instructions

Changing your cylinder:

Step 1: Remove your cylinder from the door by unscrewing the fixing screw.

Step 2: Measure each side of the cylinder to the centre of the cam making sure you indicate which is the external side and internal side.

Step 3: Purchase your new Yale Anti-Snap cylinder.

Step 4: Due to the security features of the product to fit your new cylinder you will need to take the door handles

off the door and place the cylinder in position from the outside of the door.

Step 5: With the thumb turn cylinder you will also need to take off the turn using the Allen key provided prior to positioning the cylinder in the door from the outside.

Step 6: Secure the cylinder in position with the fixing screw provided and re-fit your door handles.

Step 7: Secure the turn back onto the cylinder using the Allen key.

For thumb turn cylinders, the first size on the product code indicates the side the thumb turn is on. The Anti-Snap protection is on the external side of the cylinder.

E.g. Part Number **AS3050TTPB**

'A' Length (External) = 50mm 'B' Length (Internal) = 30mm

Fitting instructions and 'how to' video are available on www.yale.co.uk.
