

The world's favourite lock since 1843

Yale AutoSecure

The innovative locking system that makes security second nature.

- Automatically engages three locking points giving immediate compression
- Improved ease of operation
- Assists with fire safety accreditation
- 10 year mechanical guarantee

Yale AutoSecure is a new multi-point locking system from the world's favourite lock company. Designed, developed and tested to Yale's exacting standards, it delivers high performance security and enhanced service life of composite and timber doors.

The innovative automatic lock mechanism instantly fires all hooks from a single trigger point as the door closes - removing the need to lift the handle. Improving ease of use for residents with limited mobility, Yale AutoSecure offers complete peace of mind for people and property.

Ease of use meets unparalleled protection.

As with all Yale products, improved protection against crime is paramount. With police-approved Secured by Design accreditation, AutoSecure is no exception.

Along with its enhanced security features, AutoSecure includes a latch hold back snib, designed to prevent accidental lock outs. It can also assist with gaining fire safety accreditation and contributes to satisfying landlords' duty of care.

Yale AutoSecure comes with all the assurances you would expect, with a 10 year mechanical guarantee and a 10 year security guarantee.
