Yale finally introduces an intelligent biometric lock named YDM4109. This new lock has three default credentials – fingerprint, PIN code, and mechanical key override. Its advanced fingerprint verification technology guarantees more secure and convenient life. YDM4109 also provides two access modes – Security and Normal. So not only as for the residential purpose, but also for the multi-user environment, YDM4109 comes to you as the best choice. Now, actualize your dreaming life with YDM4109.

The intelligent security is all in your finger.

Mohn  
Security Specialist

“Life would never be the same when  
you feel more secured and convenient”

**Open your world and secure your home**  
The lock pioneer brings a new paradigm of locking. This biometric lock combines brilliant technologies with a proven mechanical structure. With its incomparable beauty of aesthetic design and cutting-edge features qualifies itself as one of the most essential building items for the contemporary housing. Enjoy the future life with YDM4109.

**One-touch Fingerprint Verification Method(Easy Scan)**  
Easy Scan technology has been applied to conveniently read a fingerprint in one shot without the need to open or close the cover to enter a fingerprint.

**Voice Guide**  
As the voice guide is offered that lets you know the operation status and how to set each feature and mode for easier and more convenient use.

**Smart Touchpad**  
To prevent the password from being exposed due to residual fingerprints after opening a door, a new technology has been adopted to complete the door opening process by touching the keypad with a palm after entering the password.

**Anti-panic egress with Safe handle**  
For convenience and in case of emergency, the door is automatically unlocked whenever the inner lever handle is used. And also safe handle will protect from any break-in attempts.

**Scrambling code**  
You can add meaningless number prior to or after the right code when there is a chance of exposing it to others.

**Alarm (Break-in / Damage)**  
80dB alarm goes off if anyone attempts to damage the lock or force the door open, or if the lock detects.

**Security / Normal mode**  
For multi-user environment, YDM4109 can be turned to Security(Master) mode that the master can register and delete each user while Normal mode controls all the users at one time.

**Operation status notification**  
Whenever any operation is made, the keypad informs you what is happened through different alignment of the numbers.

**Low battery alarm and emergency power supply terminal**  
It warns in case of low battery with alarm and LED. When the batteries are completely discharged, you can easily supply emergency power to the lock with the standard 9V battery.

**YDM4109**  
Front Body 28.5(D)X68.6(W)X320.7(H) mm  
Back Body 37.0(D)X72.8(W)X306.6(H) mm
